valtermoto.com

We're **PRODUCERS** and not a trading company. This difference guarantees high quality and control on products that otherwise couldn't be done.

Siamo una azienda che **PRODUCE I PROPRI PRODOTTI** e non un' impresa commerciale che si limita ad acquistare e rivendere prodotti di altri. Questa è una differenza importante che garantisce un controllo ed una costanza della qualità altrimenti impossibili.

Nous sommes **FABRICANT**, et non pas une société commerciale qui achète à quelques usines, pour revendre à tout le monde. C'est ce qui fait la différence, et nous permet de garantir un contrôle et une qualité des produits sans faille.

Somo una compañía que produce internamente sus propios productos, no nos limitamos a comprar y vender artículos de otros. Esta es una característica muy importante que garantiza un control y una constancia de calidad que de otro modo sería simplemente imposible.

Wir sind kein Handelsbetrieb, sondern Hersteller. Dieser kleine aber feine Unterschied gewährleistet eine ständige Qualitätskontrolle, welche ansonsten nicht möglich wäre. Damit ist jedoch auch ein enormer Arbeitsaufwand verbunden.

Valter Moto Components always on track

VALTER MOTO COMPONENTS parts are intended for exclusive racing use on tracks. Their use on public highways and roads may be forbidden. Only specialized motorcycle workshops can fix our products.

I prodotti VALTER MOTO COMPONENTS sono progettati e realizzati esclusivamente per uso agonistico e in circuito chiuso.

Il loro utilizzo su strade aperte al pubblico è vietato. Il montaggio dei nostri prodotti deve essere effettuato da officine motociclistiche specializzate.

VMC FURNISHING

 La linea di espositori per negozi è formata da un modulo base in laminato verniciato, delle dimensioni di cm 80x100 che consente diverse combinazioni.

 The shop furnishing line is a modular basic panel with size of 80x100 cm which allows to create several furnishing solutions and real furnishing corners.

 Le présentoirs en partant d'un simple panneau de 80 X 100 cm. en aluminium verni, ont une grande modularité et permettent de constituer différentes formes avec les mêmes panneaux.

 Die Aus dieser Akrbie heraus ist unser neues Einrichtungskonzept entstanden. Die dafür verwendeten neuartigen Bauelemente aus lackiertem Aluminium wurden kreiert, so kann man mit denselben Elementen immer wieder neue Einrichtungsideen verwirklichen. Ausgehend vom Baselement mit den Maßen 80 x 100 cm kann in der Tat vielfältig kombiniert werden.

SAFEROD ALU LEVERS PROTECTION

Protezioni leve / Protection des leviers / Protección de palancas / Hebel Schutz

Directly from racing world needs, Valter Moto Components developed the new "SAFEROD" levers protections. These products are necessary in all motorbikes races to protect brake lever from an accidental press that could cause front wheel block. VMC protections are made with Ergal 7075 and are available for both brake and clutch levers. "SAFEROD" lever protections offer different adjusts to better fit on the bike and are available in black – blue – gold – red colours to find the best customer satisfaction. It is also available a "racing" brake lever protection specific for Ø16.5 handlebars ready to fix. Specific fixing kits for different bikes models are sold separately.

Dalle richieste ricevute dal mondo delle gare in pista Valter Moto Components ha sviluppato le nuove protezioni leve "SAFEROD". Questi prodotti sono diventati obbligatori nelle competizioni per proteggere la leva freno dall'accidentale pressione, provocata da un contatto, che potrebbe causare il bloccaggio della ruota anteriore. Le protezioni leve VMC sono realizzate in Ergal 7075 e sono disponibili sia per la leva freno che per la leva frizione. Permettono diverse regolazioni e sono disponibili nei colori nero – blu – oro – rosso. È anche disponibile un modello di protezione leva freno anteriore "Racing" studiata per il montaggio sui semimanubri Ø16.5 e fornita completa di kit di montaggio. Gli attacchi specifici per i diversi modelli di moto sono venduti separatamente.

MIRRORS

Specchi / Miroirs / Retrovisores / Spiegel

Valter Moto Components has developed a new range of mirrors with the purpose to satisfy different kind of customers: road, enduro and classic. For each of these customers has been created a specific mirror designed to merge with the aesthetics features of the bike and to satisfy the liking of the different users. Body and stem are both made with aeronautical aluminum alloy, common feature for most VMC products.

VMC mirrors allow to be locked in the correct position to find the best visibility. In order to ensure maximum versatility, they have been produced with a smoked glass that offers a perfect daytime vision and at the same time decreases the sun reflection during the day and the headlights during the night.

The reflective surface of both Classic and Enduro models complies with the rules that determine the minimum mirrors area.

Valter Moto Components ha realizzato una nuova linea di specchietti destinata ad accontentare diverse tipologie di clienti: stradali, enduristi e classic. Per ognuno di questi clienti è stato disegnato uno specchietto specifico con una linea studiata per fondersi con le caratteristiche estetiche delle moto e per accontentare i gusti dei diversi utenti. Scocca e stelo sono realizzati in lega di alluminio aeronautico, caratteristica ormai comune per la maggior parte dei prodotti VMC.

Gli specchi VMC permettono il bloccaggio in diverse regolazioni per ottenere una visibilità ottimale. Al fine di assicurare la massima versatilità, è stato scelto di utilizzare un vetro oscurato in grado di offrire una perfetta visione diurna ma capace nel contempo di diminuire l'effetto luce solare di giorno e dei fari di sera.

Sia per il modello Classic che per il modello enduro la superficie riflettente rispetta le normative che determinano l'area consentita per lo specchio.

CRYSTAL TURN LIGHT INDICATORS

Frecce / Luces direccionales / Fleches / Pfeile

The continuous innovation research pushes Valter Moto Components to accept a new challenge: the indicators. As the same of all VMC products, also the body of this new indicator is made from a billet aluminum block using the most high tech production machines. This could seems too much for a simple indicator, but VMC target is always to make unique products individually made.

Body and lens design is developed inside the company to obtain a personal modern object ready to be proposed to a market that is always looking for non common accessories.

This new indicator shape recalls minerals faces so the name chose for this indicator is: CRYSTAL.

Sempre alla ricerca di novità, per il 2014 Valter Moto Components ha deciso di raccogliere una nuova sfida: la freccia.

Come per gli altri articoli realizzati da VMC, il corpo della freccia è interamente ricavato da un unico blocco di alluminio lavorato con le più avanzate tecnologie. Questo potrebbe sembrare eccessivo per una semplice freccia, ma l'obiettivo di VMC è sempre stato quello di realizzare particolari unici, prodotti singolarmente.

Il design del corpo e del vetro freccia è stato sviluppato internamente all'azienda per ottenere un oggetto moderno da proporre ad un mercato sempre alla ricerca di accessori non comuni.

La forma della freccia, che ricorda le facce di un minerale, ha portato al nome scelto per identificarla: CRYSTAL.

TANKS OIL

Serbatoi olio freno-frizione / Réservoir d'huile d'embrayage-frein / Depósito aceite del embrague-freno / Kupplungs-Brems-Öltank

COLOURS  00 01 03

The VMC oil tanks are made in two models with different capacity to be used both for the braking and hydraulic clutch systems. The project and the design have been developed to obtain a nice aesthetic impact that enriches a simple but technical component as this is. They are made from solid aeronautical aluminum alloy and are provided with a window to check oil level. The output of the tube is arranged to be both lateral and lower and consequently allows a versatile use of the product to satisfy the different needs. It is possible to buy a fixing kit (AR54 sold separately) with three different brackets to obtain different mounting solutions.

I serbatoi olio VMC sono realizzati in due modelli con capacità differenti per poter essere utilizzati sia per l'impianto frenante che per l'impianto frizione idraulico. Il progetto ed il design hanno voluto creare un impatto estetico gradevole che arricchisce notevolmente un componente semplice ma nel contempo tecnico come questo. Sono realizzati dal pieno in lega di alluminio aeronautico e dispongono della finestra per il controllo del livello dell'olio. L'uscita del tubo è predisposta per essere sia laterale che inferiore e consentire di conseguenza un utilizzo versatile del prodotto per accontentare le diverse esigenze. E' possibile acquistare separatamente un kit di staffe che offre 3 differenti soluzioni per il fissaggio dei serbatoi olio.

REARSETS

Four different kind of rearsets split in Start, Street and Race with 2 different alternatives, Fix position or Adjustable position, all are made with the same build care and material quality: ERGAL T6 7075. Starting from this aeronautical alloy we produce each single part of our rearsets using high tech machines. The production costs are high but the quality is extremely good. Shift lever and brake lever are assembled with ball bearings to have a perfect rotation, and the colour is obtained by anodic oxidation. Each single rearset is studied directly on each bike model so that it will perfectly merge with the bike. There is no compromise because we want to obtain best performances, easy installation and high customers satisfaction. Our "non adjustable" rearsets offer an elevation of 24 mm and a backward of 28 mm from original position while our "adjustable models" provide the rider with a wide choice of positions to find his favourite.

Disponibili in 4 modelli suddivisi per caratteristiche in Start, Street e Race, e in due tipologie Fisse o Regolabili, sono tutte realizzate con la stessa cura costruttiva e la medesima qualità di materiale: l'ERGAL T6 7075. Da questa lega aeronautica otteniamo ogni singolo pezzo che compone le pedane ricavandolo "dal pieno" con macchinare ad alta tecnologia; i costi produttivi sono maggiori ma la qualità di ogni pezzo è estremamente elevata. Le leve freno e cambio sono montate con cuscinetti a sfera per favorirne la rotazione. La colorazione è ottenuta attraverso un processo di ossidazione anodica per ogni variante di colore disponibile. Ciascuna pedana è sviluppata sulla moto specifica cui è destinata ed è studiata per installarsi perfettamente. Nessun adattamento, nessun compromesso quindi, così da ottenere le massime performance, facilità di montaggio e dare un'elevata soddisfazione al cliente. Rispetto alla posizione delle pedane originali, le pedane Tipo 1 "non regolabili", portano ad un arretramento di circa 28 mm ed un innalzamento di circa 24 mm. Queste quote indicative possono però variare in relazione ai diversi modelli di moto. Per quanto riguarda invece le pedane Tipo 1,5 - 2,5 - 3,5 "regolabili", il cliente ha una vasta possibilità di regolazioni per ottenere la posizione di guida ideale.

REARSETS START

Pedane tipo 1 / Commandes reculées type 1 / Estriberas tipo 1 / Ergal-Fußrastenanlagen Type 1

	Description:	Rearsets "START" Type 1
Characteristics:	Fully CNC machined, billet made. Reverse shift available. Excellent price to quality ratio.	
Rearsets' position:	Footpegs positioning is 2.5mm higher and backwards compared to the OEM sets.	
Frontpegs:	Machined foot stopper and grooved finishing. Nylon caps. Pre-machined breaking point.	
Levers:	Pre-machined breaking point 2 separate shifting shaft presets. 2 Self-lubricating top quality micro-bearings.	
Optional:	Carbon or Aluminum heel guards. Type 1.5 & 2.5 footpegs, front pegs and levers. Idrostop AR25 - AR25B. (Tipo 1)	
Material:	Ergal 7075 T6	
Colour:	Black	
Weight (indicative):	Kg. 1,100 / 1,180 kg	

	Descrizione:	Pedane "START" Tipo 1
Caratteristiche:	Tutti i componenti sono ricavati dal pieno. Disponibili per cambio rovesciato. Ottimo rapporto qualità prezzo.	
Posizione di guida:	Arretrano e rialzano di circa 25 mm. rispetto le pedane originali.	
Poggiapiedi:	Profilo di tenuta e rifinitura a godrone. Tappi in Nylon all'estremità. Punto di rottura in caso di urti.	
Puntalini:	Punti di rottura in caso di urti.	
Leve:	2 predisposizioni per attacco asta cambio. Micro cuscinetti autolubrificante di altissima qualità.	
Optional:	Alette paratacco in alluminio o carbonio. Poggiapiedi/Puntalini/Leve pedane Tipo 1.5 / 2.5. Idrostop AR25 - AR25B. (Tipo 1)	
Materiale:	ERGAL 7075 T6

	Description:	Rearsets "STREET" Type 2.5
	Characteristics:	Fully CNC machined, billet made. Aluminum heel guards. Reverse shift available.
	Rearsets' position:	Main brackets featuring 6 to 9 threaded different positioning, with 10mm increments. (Type 2.5) Footpegs positioning is 2.5mm higher and backwards compared to the OEM sets.
	Footpegs:	Removable rubber inset. Spring loaded, fold up to 90 degrees.
	Frontpegs:	Rubber coated.
	Levers:	2 separate shifting shaft presets. Shift lever with 10mm adjustable foot length. 2 Self-lubricating top quality micro-bearings.
	Optional:	Carbon heel guards. Type 1 & 1.5 footpegs, front pegs and levers.
	Material:	Ergal 7075 T6
	Colour:	Black - Blue - Gold - Red
	Weight (indicative):	Kg. 1,200 / 1,280

	Descrizione:	Pedane "STREET" Tipo 2.5
	Caratteristiche:	Tutti i componenti sono ricavati dal pieno. Alette paratacco in alluminio. Disponibili per cambio rovesciato.
	Posizione di guida:	Piastra di regolazione da 6 a 9 posizioni con modifica set di 10 mm fra una e l'altra. (Tipo 2.5) Arretrata e rialzata di circa 25mm rispetto l'originale nella posizione centrale.
	Poggiapiedi:	Rivestita in gomma con placchetta removibile. Reclinabile fino a 90° con molla di ritorno.
	Puntalini:	Rivestiti in gomma.
	Leve:	2 predisposizioni per attacco asta cambio. Leva cambio c/ reg. distanza tra puntalino e poggiapiedi di 10mm. 2 Micro cuscinetti autolubrificante di altissima qualità.
	Optional:	Alette lato freno e cambio in carbonio. Poggiapiedi / puntalini / leve intercambiabili Tipo 1/1.5.
	Materiale:	ERGA 7075 T6
	Colore:	Nero - Blu - Oro - Rosso
	Peso (medio):	Kg. 1,200 / 1,280

	Beschreibung:	Fußrastenanlagen "STREET" Typ 2.5
	Eigenschaften:	Sämtliche Komponenten CNC-gefräst Fersenschoner aus Aluminium Auch mit Schaltumkehr lieferbar
	Fahrposition:	6 - 9 Einstellungen für die Hauptaufhängung im Abstand von je 10 mm
	Fußrasten:	Mit abnehmbarem Gummieinsatz Bis zu 90 Grad einklappbar, federgelagert
	Vorder Spitze:	Mit Gummiummantelung
	Hebel:	2 verschiedene Schalthebellängen Abstand des Schalthebels zur Fußraste 10-mm-weise verstellbar Doppelte selbstschmierende Top Kugellager
	Optionen:	Fersenschoner aus Carbon Fußrasten und Schalthebel Typ 1/1.5
	Material:	Ergal 7075 T6
	Farbe:	Schwarz - Blau - Gold - Rot
	Gewicht:	Kg. 1,200 / 1,280

REARSETS RACE

Pedane tipo 3.5 / Commandes reculées type 3.5 / Estriberas tipo 3,5 / Ergal-Fußrastenanlagen 3.5

	Description:	Rearsets "RACE" Type 3.5
	Characteristics:	Fully CNC machined, billet made. Idrostop included. Alu heel guards / reverse shift available. TÜV approved
	Rearsets' position:	Main brackets featuring 6 to 9 threaded different positioning, with 10mm increments. Footpegs in central position are 2.5mm higher and backwards compared to the OEM sets.
	Footpegs:	Top quality foot stopper and machined grip finishing. Nylon caps and pre-machined breaking point.
	Frontpegs:	Rubber coated. Spring loaded, fold up to 75 degrees.
	Levers:	3 separate shifting shaft presets and 2mm thicker construction. Shift lever featuring "double body" extension for a 10mm continuous adjustability of the foot lenght. Machined profile allowing brake pump shaft adjustment. Double ball bearings.
	Optional:	Carbon heel guards. Idrostop AR25
	Material:	ERGAL 7075 T6
	Colour:	Black
	Weight:	Kg. 1,280

	Descrizione:	Pedane "RACE" Tipo 3.5
	Caratteristiche:	Tutti i componenti sono ricavati dal pieno. Alette paratacco in alluminio. Disponibili per cambio rovesciato. Idrostop compreso. TÜV approved.
	Posizione di guida:	Piastra di regolazione da 6 a 9 posizioni con modifica set di 10 mm fra una e l'altra. Arretrata e rialzata di circa 25mm rispetto l'originale nella posizione centrale.
	Poggiapiedi:	Rifinitura e profilo di tenuta di alta qualità. Tappo in nylon all'estremità. Punto di rottura in caso di urti.
	Puntalini:	Rivestiti in gomma. Reclinabili fino a 75° con molla di ritorno.
	Leve:	3 predisposizioni per attacco asta cambio. Leve a spessore maggiorato + 2 mm. Leva cambio con regolazione a doppio corpo della distanza di 10mm tra puntalino e poggiapiedi. Fresatura per regolazione perno pompa freno. Doppio cuscinetto.
	Optional:	Alette lato freno e cambio in carbonio.
	Materiale:	ERGAL 7075 T6
	Colore:	Nero
	Peso (medio):	Kg. 1,280

	Beschreibung:	Fußrastenanlagen "RACE" Typ 3.5
	Eigenschaften:	Sämtliche Komponenten CNC-gefräst. Inklusive Idrostop Fersenschoner aus Aluminium. TÜV-Zulassung. Auch mit Schaltumkehr lieferbar
	Fahrposition:	6 - 9 Einstellungen für die Hauptaufhängung im Abstand von je 10 mm. Fußrasten in mittlerer Position gegenüber dem Original etwa 25 mm höher und rückversetzt
	Fußrasten:	Hochwertige Grip-Verzahnung. Nylonkappen, Mit Sollbruchstelle versehen
	Vorder Spitze:	Mit Gummiummantelung. Bis zu 75 Grad einklappbar, federgelagert
	Hebel:	3 verschiedene Schalthebellängen. Aus 2 mm dickerem Material. Schalthebel zur 10-mm-Einstellung auf das Doppelte vergrößert. Eingefrästes Profil zur Einstellung der Bremswelle. Doppelte selbstschmierende Top Kugellager
	Optionen:	Fersenschoner aus Karbon
	Material:	Ergal 7075 T6
	Farbe:	Schwarz
	Gewicht:	Kg. 1,280

ORIGINAL REARSETS ADJUSTERS

Piastre arretramento Pedane originali / Platines de déport pour réposes-pieds d'origine

Pletina para retrasar Estriberas originales / Fußraster-Adapterplatten

	Description:	Original Rearsets Adjusters
	Characteristics:	CNC machined, billet made. Bolt-on mount. Reposition the sets 25-30mm higher and backwards compared to the OEM setup. Shaft extender included. Allow 2 to 4 different positions. Improve the riding position for track use. Serration torque of the supports to frame bolts: 2.4 – 2.6 Nm.
	Material:	Ergal
	Colour:	Black
	Weight (indicative):	Kg. 0,250

Cod. RP46

	Descrizione:	Piastre arretramento Pedane originali
	Caratteristiche:	Ricavate interamente dal pieno. Non richiedono modifiche sulla moto. Arretrano e rialzano le pedane originali di circa 25-30mm (variabile in base al modello). Prolunga asta cambio compresa. Possibilità di regolazione da 2 a 4 posizioni. Migliorano la posizione di guida per un utilizzo in pista. Coppia serraggio delle viti attacco telaio e pedane Nm 2,4 - 2,6.
	Materiale:	Ergal
	Colore:	Nero
	Peso (medio):	Kg. 0,250

VISUAL FRAME PROTECTORS

Paratelai / Roulettes de carenage / Protectores de carenado / Sturzpads

The new VISUAL frame protectors line is developed to be mounted on "naked" bikes. The innovative design merge perfectly with this kind of bikes improving slide protection. As all VMC products these parts don't need any modify of the bike for installation and are provided with mounting accessories. They are made with Ergal 7075 alloy and are available in colour black – blue – gold – red.

La nuova linea di paratelai VISUAL sono studiati per essere montati sui modelli "naked" ossia senza carenatura. La linea innovativa si fonde perfettamente con questa tipologia di moto ed aumenta la protezione in caso di scivolata. Come la maggior parte dei prodotti VMC non richiedono alcuna modifica per l'installazione e sono forniti con gli accessori necessari al montaggio. La lega di alluminio utilizzata è Ergal 7075 e sono disponibili nei colori nero - blu - oro - rosso.

LICENSE PLATE SUPPORTS

Portatarga / Support plaque / Porta matrícula / Kennzeichenhalter

	Description:	"PISTA" - "EXTREME" License Plate Support
Characteristics:	Adjustable angle. Variable turn signals height. Retroreflector included. Bolt-on mounting. Quick plate release for track use. Available for most Nations.	
"Extreme" PRTX:	Variable plate height	
Optional:	LED plate light part number: PRTL02. Approved plate light part number: PRTL01.	
Material:	PRTN Steel alloy - PRTX Aluminum alloy	
Colour:	PRTN Black - PRTX black/natural aluminum	
Weight (indicative):	"PRTN"kg.0,690 - "PRTX"kg.0,490	

	Beschreibung:	Kennzeichenhalter "PISTA" - "EXTREME"
Eigenschaften:	Blinkerhöhe variabel Inklusive Rückstrahler Für Montage keine Umbauten am Motorrad erforderlich Schneller Abbau für die Rennstrecke Für jedes Land lieferbar	
"Extreme" PRTX:	Kennzeichenhöhe variierbar.	
Optional:	LED-Kennzeichenleuchte; Artikelnummer: PRTL02 Zugelassene Kennzeichenleuchte; Art.-Nr.: PRTL01	
Material:	PRTN Stahllegierung - PRTX Aluminiumlegierung	
Farbe:	PRTN Schwarz - PRTX Schwarz/Aluminium	
Gewicht:	"PRTN"kg.0,690 - "PRTX"kg.0,490	

	Descrizione:	Portatarga "PISTA" - "EXTREME"
Caratteristiche:	Altezza supporti frecce variabile. Catadiottro compreso. Il montaggio non richiede modifiche alla moto. Rapido smontaggio piastra per uso pista. Disponibili per tutte le nazioni.	
"Extreme" PRTX:	Altezza piastra variabile.	
Optional:	Luce Led cod. PRTL02 / Luce Omologata cod. PRTL01	
Materiale:	PRTN Lega di acciaio - PRTX Lega di alluminio	
Colore:	PRTN Nero - PRTX nero/alluminio

NAKED HANDLEBARS

	Description:	NAKED Handlebars
Characteristics:	Fully interchangeable with the OEM unit. Diameter of 22mm / 12mm inner diameter. Lighter than the OEM unit.	
MN01:	high bend handlebar. 65mm rise. Improves riding comfort in some makes and models.	
MN02:	low bend handlebar 45mm rise. Improves control for sport use.	
MN03:	low bend handlebar 40mm rise. (Ø 22-28,6) Improves control for sport use.	
Optional:	Bar ends ST11	
Material:	Aluminum alloy	
Colour:	Black – Natural Ergal – Gold	
Weight (indicative):	Kg. 0,500	

	Descrizione:	Manubrio NAKED
Caratteristiche:	Intercambiabile all'originale. Diametro esterno 22mm / diametro interno 12 mm. Peso ridotto rispetto all'originale.	
Code MN01:	Manubrio a piega alta con rialzo 65 mm. Migliora il confort di guida in alcuni modelli di moto.	
Code MN02:	Manubrio a piega bassa con rialzo 45 mm. Permette un controllo migliore per l'uso sportivo.	
Code MN03:	Manubrio a piega bassa con rialzo 40 mm. (Ø 22-28,6) Permette un controllo migliore per l'uso sportivo.	
Optional:	Terminale manubrio ST11	
Materiale:	Lega di alluminio	
Colore:	Nero - Ergal - Oro	
Peso (medio):	Kg. 0,500

RACE CLIP-ON

	Description:	"Race" Clip-ons
	Characteristics:	Fully CNC machined, billed made collar. 7 degrees shaft angle. Shafts are made of Avional, a more flexible alloy in case of crashes. Nylon caps. Suggested for track use.
	Type 1:	Shaft axle height 0mm. Single bolt retain for both collar and shaft.
	Type 2:	Shaft axle height 10mm. Double bolt retain for both collar and shaft.
	Type 3:	Shaft axle height 20mm. Double bolt retain for both collar and shaft.
	Material:	Ergal – Avional
	Colour:	Black
	Weight:	"T.1"kg.0,540 - "T.2"kg.0,600 - "T.3"kg.0,620

	Descrizione:	Semimanubri "Race"
	Caratteristiche:	Bracciale interamente ricavato dal pieno. Inclinazione asta manubrio 7°. Aste in Avional materiale meno rigido in caso di cadute. Tappo di chiusura all'estremità asta. Consigliato per un utilizzo in pista.
	Type 1 :	Altezza dall'asse asta 0 mm. Bracciale ed asta fissati a vite unica.
	Type 2 :	Altezza dall'asse asta 10 mm. Bracciale e asta con fissaggio a 2 viti.
	Type 3 :	Altezza dall'asse asta 20 mm. Bracciale e asta con fissaggio a 2 viti.
	Materiale:	Ergal - Avional
	Colore:	Nero
	Peso (medio):	"T.1"kg.0,540 - "T.2"kg.0,600 - "T.3"kg.0,620

	Beschreibung:	Lenkerstummel "Race"
	Eigenschaften:	Komplett CNC-gefräst Lenkerstange 7° geneigt Aus für die Luftfahrt entwickeltem Material - bei Stürzen flexibler Nylonkappen Für die Rennstrecke empfohlen
	Type 1 :	Achswellenhöhe 0 mm Ring und Stange werden mit einem einzigen Bolzen befestigt.
	Type 2 :	Achswellenhöhe 10 mm Ring und Stange werden mit zwei Bolzen befestigt.
	Type 3 :	Achswellenhöhe 20 mm Ring und Stange werden mit zwei Bolzen befestigt.
	Material:	Flugzeug-Ergal
	Farbe:	Schwarz

EXTREME

	Description:	"EXTREME" Handlebar ends
	Characteristics:	Fully CNC machined, billet made. Improved design compared to the OEM units. Lighter than the OEM units. Sold as pair.
	"Extreme" ST:	Great looking bar ends
	Material:	ST Aluminum alloy
	Colour:	Black - Blue - Gold - Red
	Weight (indicative):	"ST"kg.0,060

	Descrizione:	Terminali manubrio "EXTREME"
	Caratteristiche:	Particolari ricavati dal pieno. Miglior design rispetto all'originale. Peso ridotto rispetto l'originale. Prodotto confezionato a coppia.
	"Extreme" ST:	Protezioni estetiche per le estremità dei semimanubri.
	Materiale:	ST Lega di alluminio
	Colore:	Nero - Blu - Oro - Rosso
	Peso (medio):	"ST"kg.0,060

A side-profile photograph of a Honda CBR600F4i motorcycle. The bike is primarily red with black accents on the fairings and seat. It features a prominent front fairing with a large headlight, a black seat, and a black rear fender. The wheels are black with multi-spoke designs. The motorcycle is shown from a side-on perspective, facing right.

Two black metal motorcycle rearsets are shown against a white background. The top rearset is a straight bar with a curved end, featuring the text "JUST RACING PARTS" and a small "A" logo. It has gold-colored hardware at the mounting end. The bottom rearset is a more complex, curved design, also featuring the text "JUST RACING PARTS" and a small "A" logo, with gold-colored hardware at the mounting end.

A side-profile photograph of a BMW motorcycle, likely a 1200cc model. The bike features a blue and white color scheme. The front fairing and fuel tank are white, while the front fender, side fairings, and rear section are blue. The BMW roundel logo is visible on the side fairing. The motorcycle has a black seat, dual exhaust pipes, and alloy wheels. It is shown from a three-quarter front view against a plain white background.

PRODOTTO
100%
ITALIANO

A close-up photograph of a black plastic cable tie (lock) fastened around a white cable. The tie is shown in profile, highlighting its locking mechanism and the way it grips the cable.
